Community employment & support: responsive

Established
1994

Iowa Association For Persons In Supported Employment

The **Iowa APSE Chapter** was formed to improve and expand integrated employment services and outcomes through supported employment for persons with disabilities.

Iowa APSE is a growing organization with representation from all regions of the state.

APSE members are supported employment professionals, supported employees, family members, employers, rehabilitation counselors, advocates and others with an interest in employment for persons with disabilities.

Membership is open to anyone who wants to be a part of a grassroots network committed to ensuring that supported employment continues to grow and improve.

There are many more people who could benefit from supported employment, yet cannot access it. **APSE** provides a strong voice for support.

With the support of a strong membership, APSE will be able to advocate for:

- Quality supported employment for an increasing number of people experiencing severe disabilities in your community.
- Enhanced funding opportunities
- Better career opportunities for direct staff

Strengthen APSE with Your Membership!

IOWA APSE offers YOU opportunities to...

- Belong to **Iowa APSE** and influence statewide policies and practices.
- Enhance your professional standing through **APSE** endorsed ethical guidelines and quality practices.
- Receive **ACTION ALERTS** on state and national events that will affect your job.
- Learn about current supported employment events in **Iowa Apse's quarterly newsletter**.
- Attend and participate in state and regional trainings on supported employment.
- Network with supported employment providers, leaders and customers.

APSE is committed to Supported Employment (SE) and the impact it has on improving the quality of life of anyone associated with (SE) programs
