Enduring & Award Winning Partnerships

Arc of Westchester partners with more than 250 businesses across the county and we place individuals in rewarding careers in law firms, retail, restaurants, schools, government offices and a pharmaceutical company. We’ve worked with some of our employment partners for decades and we work to bring in new businesses all the time.

One strong example of a longstanding relationship is our enduring and expansive partnership Regeneron Pharmaceuticals, Inc. This leading science-based biopharmaceutical company based in Tarrytown, New York discovers, invents, develops, manufactures, and commercializes medicines for the treatment of serious medical conditions.

This partnership began in 2011 and Regeneron now employs eight individuals full time. This group of individuals work as facilities aides and are reliable, conscientious and show responsibility and consistency in their work.

“Regeneron takes pride in doing the right stuff and we think this is the right thing to do. One of the fears a company may have is that they are going to have to supervise an individual all the time and deal with problems they are not use to. Arc of Westchester provides job coaches who supervise the employee based on their skill level. Some need more and others are more independent. The support system is there!”

-- Joanne Deyo, Vice-President Facilities, Regeneron Pharmaceuticals, Inc.

Daniel was recognized during National Disability Employment Awareness Month in 2013 by Westchester County for his outstanding work at Regeneron Pharmaceuticals, Inc. He has been with the company since his high school graduation in 2011. His hard work and attention to detail has set a positive example and he has become a mentor for other individuals beginning their careers at Regeneron.
Another strong example of a longstanding relationship is our enduring and expansive partnership with Boies, Schiller & Flexner LLP of Armonk. We began with three Arc participants in 2002 and have expanded to now provide a team of eight individuals who are responsible for the timely delivery of standard and interoffice mail, including critical legal documents, and for providing inventory supply management for three on-site kitchens. A full time Arc of Westchester coach and visiting Job Placement Specialist support the program.

Boies, Schiller & Flexner received first runner up in the 2013 Works For Me award from the New York State Office for People with Developmental Disabilities last October. This distinctive recognition is given to select employers throughout the state for demonstrated workplace diversity.

“Employing people with disabilities is not only good for the community because it gives a job to someone who wants to work, but it’s good for business because it opens up a cost-effective labor pool. It gives us the opportunity to do good for the community and to do well for ourselves.”

-- David Boies, chairman, Boies, Schiller & Flexner LLP.

William S. Ohlemeyer Esq., partner at the firm, is proud of the Arc of Westchester employees who work in their Armonk office.
